sustainability

spring semester 2015

ENGR 4891-10  Sustainability Seminar

- sustainability means different things to different people
- how can we meet the needs of the present without compromising the ability of future generations to meet their own needs?
- this one credit-hour seminar explores the basic concepts and issues of sustainability
- experts in sustainability share their knowledge and lead discussions on critical issues that impact our social, political, economic, environmental and global well-being

Dr. Phil Schlosser — engineer, inventor, entrepreneur, professor — teaches first-year engineering courses and seminars on creativity, innovation and sustainability at osu

-sign up! no pre-requisites — students from all academic areas of the university are invited to enroll — sign up!
